

SOREX WASP NEST DESTROYER MKII

Contains 0.05% w/w tetramethrin, perchloroethylene, dichloromethane

Effectively destroys wasps nests.

This product should not be used against honey bees or their nests.

STATUTORY CONDITIONS RELATING TO USE

FOR USE ONLY AS AN INSECTICIDE.

FOR THE CONTROL AND DESTRUCTION OF THE NESTS OF WASPS, HORNETS, MASONRY WASPS AND MASONRY BEES

FOR USE ONLY BY PROFESSIONAL OPERATORS

APPLICATION: Discharge aerosol about 3 metres away from nest, treating exterior of nest. When exterior of nest has been treated, treat inside the nest.

The (COSHH) Control of Substances Hazardous to Health Regulations 2002 may apply to the use of this product at work.

DO NOT CONTAMINATE FOODSTUFFS, EATING UTENSILS OR FOOD CONTACT SURFACES.

Avoid contact with skin.

Engineering control of operator exposure must be used where reasonably practicable in addition to the following items of personal protective equipment.

Wear suitable gloves.

However, engineering controls may replace personal protective equipment if a COSHH assessment shows they provide an equal or higher standard of protection.

Do not breathe vapour or spray.

When using do not eat, drink or smoke.

COVER ALL WATER STORAGE TANKS before application.

REMOVE OR COVER ALL FISH TANKS AND BOWLS BEFORE APPLICATION.

Do not contaminate ground, waterbodies or watercourses with chemicals or used container.

HAZARDOUS TO BEES.

This material and its container must be disposed of in a safe way. (PCS 94492)

READ ALL PRECAUTIONS BEFORE USE. (HSE 8275)

DIRECTIONS FOR USE

The treatment should be carried out at times when there is reduced wasp activity e.g. dusk. Direct the jet towards the nest, beginning from a distance of about 3 metres. Spray until the nest and all visible wasps are contacted, then move forward spraying continuously, until the jet can be discharged directly into the nest hole. For large nests, the whole aerosol should be discharged. Wasps are very rapidly immobilised due to the freezing action of the spray. Wasps flying in the vapour cloud around the nest become narcotised and will not sting. The heavier than air vapour within the nest traps and suffocates the occupants. The insecticidal component of the formulation kills larvae and any wasps that attempt to enter the nest after the solvent has evaporated.

Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50°C. Do not burn or pierce even after use.

Do not spray on a naked flame, electrical equipment or any incandescent materials.

Keep away from sources of ignition – No Smoking.

MAY DAMAGE SOME PAINTS, PLASTICS AND SYNTHETIC FIBRES.

THIS PRODUCT CONTAINS NO PROPELLANTS ALLEGED TO DAMAGE THE OZONE LAYER.

PRECAUTIONS

WASH HANDS AND EXPOSED SKIN before meals and after use.

Keep out of reach of children.

KEEP IN A SAFE PLACE.

Keep away from food, drink and animal feedingsuffs.

VENTILATE TREATED AREAS THOROUGHLY after application.

DO NOT SPRAY DIRECTLY INTO BREEZE/WIND.

UNTIL DRY, TREATED SURFACES CAN POSE A FIRE RISK.

In case of accident or if you feel unwell, seek medical advice (show the label where possible).

HARMFUL

DANGEROUS FOR THE ENVIRONMENT

300g
238ml

R10 Flammable

R40 Limited evidence of a carcinogenic effect.

R51/53 Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

S23 Do not breathe gas/fumes/vapour/spray.

S24/25 Avoid contact with skin and eyes.

S36/37 Wear suitable protective clothing and gloves.

S45 In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

S60 This material and its container must be disposed of as hazardous waste.

S61 Avoid release to the environment.

Refer to special instructions/Safety data sheets.

Contains: perchloroethylene,
dichloromethane

This product is approved under The Control of Pesticides Regulations 1986 (as amended) for use as directed. HSE 8275.
